

## ***Bonjour, and thank you for visiting. I have the key to your dream home!***

Born in France, and Parisian bred, I have been staging and reinventing homes since I was a teenager redoing my friends' rooms! I have always thought outside the box and I have been upcycling or repurposing anything that stood still long before there was a trending name for it... I have turned this French flair, love of design, handy skills and crafty ways into a successful career I am passionate about. I thrive on making your world more beautiful, one room at a time. I now divide my time between New York, Paris, and Stanfordville. I also have extensive experience in the Hamptons. So let me help:

- If you need expert staging to turn your real estate property from “stale” to “sold”...
- If you are starting a new chapter in your life that calls for a new décor...
- If you are moving across town or relocating to another one...
- If your family is blessed with a new member or you are an empty nester downsizing...
- If you just want to spruce things up...

I will have a curated selection of what I have in stock at the store. There is so much more where that came from! Any fabric can be changed, choosing from an extensive selection of designer fabrics.

So why don't we “stage your home“! Let's use what you have, refinish it or repurpose it. We'll add a few new (to you) great pieces, gorgeous fabrics and fab touches. A few hours later, tada, brand new room!

If there is anything specific you need and are looking for, let's talk about it. I probably have it, and will send you pictures and dimensions. Need extra sitting? I have all styles of chairs waiting for a makeover and a new home at “The Chair Sanctuary”. Need a table? Be more specific... Coffee table, bedside table, console table, so many to choose from! Just need a little something to spruce things up and don't even know what... got that too!

***Life is a stage, your home should always be ready for its close up!***

# ***French Shui By Veronique is...***

- Mixing old and new by honoring the past but living firmly in the present. Let's update pieces that have a soul and stories to tell, and make them work in your 21st century décor.
- Mixing high and low! Think Sharon Stone at the Oscars, the epitome of glamour and chic matching a Vera Wang satin evening skirt with a simple, white button-down men's shirt from Gap.
- Decluttering and eliminating the distraction and stress of too much stuff crowding your space.
- Refinishing, repurposing & reinventing pieces. Let's paint, stain, decoupage & reupholster your favorite possessions, furniture should be like cats and have 9 lives!
- Creating custom pieces by catering to your personal needs and wants. Let's bring your unique style to life in any room in your home.
- Giving your tween or teen their dream room by celebrating their favorite colors, involving them through the entire process, and not breaking the bank.
- Using and upgrading what you have. Let's spice things up in the kitchen with new hardware and paint, or heat things up in the bedroom by reupholstering pieces using luxurious materials and adding accents.

***French Shui By Veronique is staging your home,  
because you are selling it,  
or just want to fall in love with it all over again!***
